

 LIONCAST

Quad Charger

For Nintendo Switch™ 2 Joy-Cons™

Quad Charger

for Nintendo Switch™ 2 Joy-Cons™

Health and safety information

Please read and observe the following health and safety information carefully before using the device. Failure to do so may result in damage or injury. Use of the product by children only under adult supervision.

Warning

Electrical Safety Information

- Recommended for use only to charge the Switch 2 Joy-Cons.
- Use the charging station and the included USB-C cable with standard USB-C power supplies
- We strongly advise against the use of voltage converters or sockets that reduce the supplied current
- The charging station may only be used indoors, i.e. only in dry conditions.
- The charging station must not be exposed to microwaves or too high temperatures.
- Make sure that the charging station and all plugs do not come into contact with liquids and get wet or even damp! Do not pull the cable of the charging station or bend it too much.
- Avoid touching the charging station's connectors with your fingers, metal objects or other surfaces. This will prevent conta-

mination of the Switch 2 connectors. Cleaning with a dry cloth is advantageous.

- Do not touch the Base Station or devices connected to the Base Station when charging during a thunderstorm.
- If you notice unusual noises, smells or smoke, disconnect the device from the power supply and contact our service department.
- Do not disassemble or repair the charging station or the supplied cable. If either or both are damaged, discontinue use immediately and contact our service department. Do not touch damaged areas.

Warning

General Information

Keep this product and its packaging materials out of the reach of younger children. Packaging materials may be swallowed. The cable could be tied around the neck.

Cautious Use

If the charging station or the cable is dirty, wipe it with a dry, soft cloth. Do not use thinner, petrol or alcohol.

Function Diagram:

Features:

- » Charges up to 4 Joy-Con Controllers simultaneously
- » Individual LEDs indicate charge level for each Joy-Con
 - Red LED indicator light: charging mode
 - Blue LED indicator light: controller is fully charged
 - No LED display: no charging process
- » After switching on the device, a test is performed with the following LED pattern: ■ » ■ » ■
- » Effortless charging thanks to magnetic alignment. The controllers can be used in any orientation.
- » Powered via USB Type-C cable (replaceable)
- » Choose from 3 different power sources: Nintendo Switch Dock, USB-C Adapter and USB Power Bank
- » Weighted base for stability
- » Smart and secure charging: high current protection, short circuit protection, low and high voltage protection

TECHNICAL INFORMATION:

Power input port: USB Type-C

Charging method: contact charging

Input voltage: DC5.2V

Input current: 500mA

Output current: 200mA (for each charging connection)

Declaration of Conformity

Stage10 GmbH hereby declares that the product is in conformity with the relevant Union harmonization legislation(s) (2014/53/EU et al). The full text of the EU declaration of conformity is available at the following Internet address:

Manufacturer Information and Service

If you have questions regarding the product or if any problems occur during operation or similar, first contact the following body via e-mail:

info@lioncast.com

Lioncast is a trademark of Stage10 GmbH |

Oranienburger Str. 45 | 10117 Berlin | Germany

Disposal

Disposing of the packaging

Dispose of the packaging sorted into single-type materials:

- Paperboard and cardboard for recycled paper
- Films in the recyclable material collection service

Disposing of the device

(Applicable in the European Union and other European states with systems for the separate collection of reusable waste materials)

If the product is no longer operational, every consumer is **required by law to dispose of used devices separately from household waste**, e.g. at a collection point run by the communal authority/borough. This ensures that old devices are recycled in a professional manner and also rules out negative consequences for the environment. For this reason, electrical equipment is marked with the symbol shown here.
